Re: Application of BellSouth Telecommunications, Inc. to Provide In-Region
InterLATA Services Pursuant to Section 271 of the Telecommunications Act of
1996
Docket No. 2001-209-C

Dear Mr. Terreni:

BellSouth Telecommunications, Inc., d/b/a AT&T South Carolina is filing a Proposed Data Notification Report for September 2008 data month. These changes will be discussed at the August 7, 2008 industry conference call.

Thank you for your attention to this matter.

Sincerely,

Patrick W. Turner

PROPOSED SEPTEMBER 2008 DATA NOTIFICATION

BellSouth Telecommunications, Inc., d/b/a AT&T South Carolina (“AT&T South Carolina”) is considering making the changes described in this document to generate results for the September 2008 data month. Results for the September 2008 data month will be posted as follows:

Preliminary results	October 20, 2008
Final results	October 31, 2008

AT&T South Carolina provides Data Notifications each month in compliance with the SQM Plan. This order specifies that when AT&T South Carolina proposes making any changes to the methods by which performance data is calculated, it must provide written notice. This notice must be provided on the first business day of the month before the data month in which the change will be made. AT&T South Carolina must also provide notification if it is considering making changes to the method of calculating data for the following month.

Wholesale system releases may affect monthly data flows from the source systems (e.g., LASR, LESOG, etc.) that PMAP uses to calculate measurements. AT&T South Carolina will make changes to PMAP to ensure that data continues to be correctly captured as system release changes are implemented.

Provisioning Measurements

(1) *Affected Measures:* P-11 (SOA – Service Order Accuracy)

Description of Change: In the Preliminary September 2008 Data Notification, AT&T proposed that it was incorrectly grouping the subgroups in the UNE and Resale disaggregations for Service Order Accuracy for “List” records (ReqTyp J – Directory Listing) and “Trigger” and “Loop” records. AT&T has made the determination after further review that these records are being properly grouped in the UNE and Resale disaggregations. Therefore, AT&T is withdrawing this portion of the proposed change.

As noted in the Preliminary September 2008 Data Notification, AT&T is incorrectly including records in the UNE-P disaggregation in all states for companies who have signed a commercial agreement with AT&T. AT&T proposes to remove customers with commercial agreements from the UNE-P disaggregation. This proposed change was included in item (1) on the Preliminary September 2008 Data Notification filed on July 1, 2008. (RQ9364)

Impact of Change: The UNE-P disaggregation will change from 97.40% to 100.00%. Due to the impact of this change, re-posting is not necessary.

(2) *Affected Measures:* P-11 (SOA – Service Order Accuracy)

Description of Change: Currently, the Service Order Accuracy measure is using the current month's look-up table to produce the results for the CLEC-specific reports. The data month for the Service Order Accuracy measure by definition is one month behind since it measures request for service by comparing the completed service order after provisioning has been completed. Therefore, for processing the Service Order Accuracy measure, AT&T South Carolina proposes to change the code to use the previous month's company look-up table. This proposed change was item (2) on the Preliminary September 2008 Data Notification filed on July 1, 2008. (RQ9468)

Impact of Change: This change would only impact the CLEC-specific report when a CLEC acquires new OCNs or goes out-of-business. Due to the impact of this change, re-posting is not necessary.
